

Cruise Your New Baby Fly Self

Girls Against Boys

One more time with the feeling
one more time with style
one more time with feeling straight out of you veins
straight out of your eyes
from the top of your neck
to the base of your spine new baby fly new baby fly
you gotta cruise yourself
who is gonna mind
and I mean that in a good way forget this room forget this time
one more time with feeling
forget this room forget this time
one more time with style
