## Jagwar Ma

Your lips...  
Your lips...  
Your lips...  
Your lips match your toe nails  
You got all your [romance?]  
What a creep for me to notice  
What a [wee?] for you to go there Can't you tell that I need this?  
Do you care, is it meaningless?  
You let this kid get between us This eye feel right together  
This run feels right together Every now, now and then,  
now and then, now... now  
I gotta get up  
Gotta get up... Ah, aah! That stare...  
That stare burns my soul now  
I can tell you already know that  
What a creep for me to notice  
What a wee for you to go there Can't you tell that I need?  
You'll have this kid get between us. This eye feel right together  
This run feels right together Every now, now and then,  
now and then, now... now  
I gotta get up  
Gotta get up... Ah, aah! [Indistinguishable mumbling] You'll have this kid  
You'll have this kid get between us This eye feel right together  
This run feels right together Every now, now and then,  
now and then, now... now  
I gotta get up  
Gotta get up... Ah, aah! Every now, now and then,  
now and then, now... now  
I gotta get up  
Gotta get up... Ah, aah! Every now, now and then,  
now and then, now... now Every now, now and then,  
now and then, now... now Every now, now and then,  
now and then, now... now Every now, now and then,  
now and then, now... now Every now, now and then,  
now.. now, now... now.. now... [Indistinguishable mumbling]
