

# Ovary Stripe (Band Remix)

## Kasabian

Coco believe me  
I'm a lonesome man  
I wanna get stoned and trip some wires  
I wanna get myself underground When I say I'm fightin the dead  
I said that, you must believe me  
Lyin low across the evening  
Can you see the lumps on my head  
Sayin  
But I got these voices that just keep singin out I just cant stop losin control  
I just cant stop losin control  
Said that I just cant stop losin control  
I just cant stop losin control  
I just cant stop losin control  
Said that I just cant stop losin control  
Trench wander pavement In the corner of the city  
Tryin to score some love  
Matching faces with fees Standing with all the whores and cannibals  
I guess that you never been here by the look upon your face In the censored race  
I just cant stop losin' control  
Singin out  
I just cant stop losin' control  
Said that  
I just cant stop losin' control  
I just cant stop losin' control Singin out  
I just cant stop losin' control  
Said that  
I just cant stop losin' control  
I just cant stop losin' control  
I just cant stop losin' control I said that, you must believe me  
When I say I'm fightin the dead  
Lyin low across the evening  
Can you see the lumps on my head I guess that you never been here by the look upon your face  
Standing with all the whores and cannibals  
In the censored race Singin out  
I just cant stop losin' control  
Said that  
I just cant stop losin' control  
I just cant stop losin' control  
I just cant stop losin' control

I've got these voices
