Loneliest Man

Tompall Glaser

I don't need your consultation - I just need some time alone
To vend my frustrations - So please stay off my phone
And don't bother me tonight - I think I wanna go on home
And just die a while
I don't want you to bleed for me - I just need some time alone
I want you to need me - So please stay off my phone
And don't bother me tonight - I think I wanna go on home
Girl, just go away
CHORUS:

The most lonely man in the world - Who could it be
The most single guy you'll see - Who could it be
The most lonely man in the world - Has got to be me
It's got to be me, it's got to be me
I don't want you to die for me - I just need some time alone
Don't want you to cry for me - So please stay off my phone
And don't call on me tonight - I think I wanna go on home
And just lie a while
CHORUS TWICE
