

Night People

DIO

Do you like the dark
Do you like the way it moves
Do you come alive when neon kills the sunAre you hypnotized?
Part of the illusion
Oh, see how they runIt's the mystery
Poetry and passion
Innocence and fashion
Revolution, evolution waysNight peopleAre you satisfied?
With the lessons that you're learning
Is the fire really burning
Do you know?Hey dream child
Promises are spoken
And promises are broken
Electric eyes that never let you see them in the dayNight people
Night peopleDo you like the dark
Do you like the way it moves
Do you come alive when neon Kills the sunshineAre you hypnotized
Innocence and fashion
Promises and passion
Evolution, revolution ways
And everybody staysNight people
Night people, yeahDo you like the dark
Do you like the way it moves
Are you hypnotized
Paralyzed
Revolution
Hey dream child
You got electric eyes
Hey dream child oh
