Little Black Book

Cee Lo Green

In my little black book, you're there to remind meThere was a time, you and I were everything
You'll never know the days and nights I spend imaginingYesterday is the only place, we'll ever know, oh, ohIn my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
It wasn't just a dream and baby, in my heart you will always bePicked up the phone, didn't know what I was gonna do
I heard your voice, I had no choice, I hang up on youYesterday is the only place, we'll ever know, oh, ohIn my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
How it used to be but baby, in my heart you're still a part of meThere's no future living in the past
You can dream but you can never go back
Oh no, you will always be there
In my little black, in my little black bookIn my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
It wasn't just a dream, now we're worlds apart
You're in my heart and there you'll always beIn my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, a part of me
In my little black book, a part of meYou will always be a part of me, in my little black book
