

Little Black Book

Cee Lo Green

In my little black book, you're there to remind me
There was a time, you and I were everything
You'll never know the days and nights I spend imagining
Yesterday is the only place, we'll ever know, oh, oh
In my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
It wasn't just a dream and baby, in my heart you will always be
Picked up the phone, didn't know what I was gonna do
I heard your voice, I had no choice, I hang up on you
Yesterday is the only place, we'll ever know, oh, oh
In my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
How it used to be but baby, in my heart you're still a part of me
There's no future living in the past
You can dream but you can never go back
Oh no, you will always be there
In my little black, in my little black book
In my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, you're always there to remind me
It wasn't just a dream, now we're worlds apart
You're in my heart and there you'll always be
In my little black book, there's someone I used to know
Day by day time slips away, where did our love go?
In my little black book, a part of me
In my little black book, a part of me
You will always be a part of me, in my little black book
