

# Your Sword Versus My Dagger

## Silverstein

I'm cutting through  
You're bleeding out  
And I would tell the truth  
But I can't help myself

red rushes out, dissect this nerve  
And I will stop myself  
Before I reach my cell

I wasn't asking for the world  
And you know that I'm not one to follow through

All these city streets  
The people look the same  
And I can see your face  
And I can hear your name  
I wasn't asking for the world

Your stabbing in  
permanent scars  
And you'll justify  
it all inside yourself  
You've finished me  
my pulse is gone  
And you're satisfied to put this all to hell  
I wasn't asking for the world  
And you know that I'm not one to follow through

All these city streets  
The people look the same  
And I can see your face  
And I can hear your name  
I wasn't asking for the world

Drink the poison when you think it's over  
Stabbing yourself when you think it's too late  
Tragic endings are your thing  
You love them  
You love letting go  
The endings the same

Drink the poison when you think its over  
inevitable, Verona lives inside of you

I wasnt asking for the world  
And you know that Im not one to follow through  
All these city streets  
The people look the same  
And I can see your face  
And I can hear your name  
I wasnt asking for the world
