Red Wanting Blue

So you're off in never never land
Couldn't wait for Peter Pan
Wendy, you know it's never the same when you're on your own
Do you miss me
And think about all the times you could of kissed me
But never made a move
And neither did IBut birthday cards scribbled in crayon and letters on Valentine's Day just to say hello
Were you too shy to say what I wanted so badly to know
And by the way Veruca
Do you remember flying to heaven with toad
Or staying up late, waiting for GodotI'm just a friend
I want a larger role
I'm just a friend
I never told you though
I'm just a friend
Catch me in your show
I wanna take back all the times I never told you
I'll be there for you
I wanna take back all the times I couldn't hold you
I'll be there for you
I wanna take back all the times I should've showed you
I'll be there...Saturday night premier for your career
Tell me are you disallusioned
About all the makeup and what they make you wear
Did they cut your hair
And all the lipstick...
It's a little much on your lips
I wanna rub it off with my finger tip
You know they look so much better when they're completely bareI'm just a friend
I want a larger role
I'm just a friend
I never told you though
I'm just a friend
Catch me in your show
I wanna take back all the times I never told you
I'll be there for you
I wanna take back all the times I couldn't hold you
I'll be there for you
I wanna take back all the times I should've showed you

I'll be there...Sleep easy baby
Rest easy baby
You replaced your name with fame
Sleep easy baby
Rest easy baby
I wanna win the girl who came before the name
