

# This One's for Kermitt Washington

## Inkwell

There's a ghost on every corner of this town.  
They're reminding me of how things used to be.  
They're offering an easier way out,  
    But if it's easier.  
    Let's make it easier.  
    You can always save the best for last.  
    I was never meant to make it past twenty-two.  
    Look at me now, who knew.  
    I found it was much easier back then, but if it's easier.  
    Let's make it easier.  
    You can always save the best for last.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
There's a ghost on every corner of this town.  
They're reminding me of how things used to be.  
They're offering an easier way out,  
    But if it's easier.  
    Let's make it easier.  
    You can always save the best for life.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
You can always save the best for last.  
You can always save the best for last.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
    Well, the time it takes  
    And the rules we break.  
    Gets harder to take it all back.  
    To take is all back  
    Get harder to take it all back.

To take it all back
