

Beautiful Dream

Dale Earnhardt Jr. Jr.

I lay down so far from home
I lay down so far from home I die with you, honey
I die with you I was in the backyard trying to take a picture of you
Soft and sentimental and it carries me on to you
I forget your face when I can't touch it at all It was a beautiful dream, it lasted all of the evening
Music crawling all across my ears - play on, play it
You were a beautiful being, without a man for the evening
If you're going, then I'm going
You have my heart, so
I die with you, honey
I die with you Honey in the backyard trying to hide her image from me
Soft and sentimental but it buries me all, oh darling
Don't you see I'm never gonna leave you at all It was a beautiful dream, it lasted all of the evening
Music crawling all across my ears - play on, play it
You were a beautiful being, without a man for the evening
If you're going, then I'm going
You have my heart, so
I die with you, honey
I die with you I lay back so far from home
I lay back so far from home
