You and I

Stephanie Mills

You and I could be
Together for all time
I know we can make it
You and I have found
The love other's dream of
No one else can tell you thatYou and I could be
Together for all times
I know we'll find a way
To spend togetherWe'll find a special place in the sun
Love lifted our two hearts to one
Every time we kiss
Shows me what I miss
All I want is your sweet loveFor you I'll do anything
You and I could share
The joy that true love brings
You know we'll make itAnd you and I won't care
What other people say
The moment's ours
Let's find a way to stay togetherYou came into my life
With your tender charms
I'll find my heaven
Inside your armsNever go away
Here I want to stay
I'll I want is
Your sweet loveYou're my heart, my manYou and I could be
Together for all time
I know we'll make it
You and I have found
A love that is greater
No one else can change itYou and I
Can be together
You and I
Forever
You and I
Can be together
You an I
Forever
You and I
