

Happy

Red Lorry Yellow Lorry

In your smile I could tell you were happy to see me
In your eyes I could tell you were happy to see me I was running from a world so cold, I was on the other side
And oh if love could be an easy game, I 'd be in your arms tonight This is right, when you're down you look
happy to see me

All along I could tell you were happy to see me I was running from a world so cold, I was on the other side
And oh if love could be an easy game, I 'd be in your arms tonight In your eyes I could tell you were happy to
see me

All along I could tell you were happy to see me Happy to see me. Happy to see me.
