Hole In Your Head

Treble Charger

Who's that poking underneath your shirt?
What's the mirror image you call dirt?
Why don't you just tell me where it hurts?
Not that I can help you
Nothing here can save you
But you don't wanna go home
Is there nothing that escapes
Through the hole in your head?
On the table is your only friend
Doubt you'll be together in the end
One less cry for help you'll have to send
To no one else except you
Nothing here can save you
But you don't wanna go home
Is there nothing that escapes
Through the hole in your head?
I don't like you
I don't like you
I don't like you
I don't like you
Nothing here can save you
But you don't wanna go home
Is there nothing that escapes
Through the hole in your head?
Nothing here can save you
But you don't wanna go home
Is there nothing that escapes
Through the hole in your head?
Don't want it
Don't need it
Don't bother now
