

I Want to Be Your Brother

Blue System

Sailor of my heart, sailor of my fun
Oh, you need my stuff, oh, we're born to run
Hear my heartbeat, hear my heartbeat
Babe, tonight, oh, it's a love beat In these lonely nights, oh, we'll come and go
How do fools survive when your pain will grow?
Hear my heartbeat, hear my heartbeat
Babe, tonight, oh, it's a love beat I want to be, be your brother, be your brother, girl
I want to be your friend
I want to be, be your brother, be your brother, girl
Baby, come take my hand I want to be, be your brother, be your brother, girl
I want to be your friend
I want to be, be your brother, be your brother, girl
Baby, come take my hand Sailor I don't care if you're right or wrong
I will be there, when you're friends are gone
Hear my heartbeat, hear my heartbeat
Babe, tonight, it's a love beat Sailor of your heart, oh, it's out of tune
Oh, let us start just to [Incomprehensible] the moon
Hear my heartbeat, hear my heartbeat
Babe, tonight it's a love beat I want to be, be your brother, be your brother, girl
I want to be your friend
I want to be, be your brother, be your brother, girl
Baby, come take my hand I want to be, be your brother, be your brother, girl
I want to be your friend
Oh, let us stay in together, girl
Baby, come take my hand I want to be, be your brother, be your brother, girl
I want to be your friend
I want to be, be your brother, be your brother, girl
Baby, come take my hand
