Paul Revere's Midnight Ride

Four Year Strong

You're off by a long sight
You've got to find your reason right now
To put that eye up to the keyhole
To find the answers to the questions
What's it like or what's in fashion?
This passion keeps us moving along
Could I be down to try to get up off the ground
To survive without you?
'Cause you'll still be living while I'm busy singing to live
Give up, give in or get up on the roof of the big time
And try to pretend you knew better
I don't care about you
'Cause you'll still be living while I'm busy singing
Take one step, have you got it in you?
You'll have to take it if you want to
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back underground
Take one step, have you got it in you?
You'll have to fake it like you always do
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back underground
You're off by a long shot
You've got to find your reason right now
To keep your hands inside the game
To find your ride for the long haul
And let you shoulder all the blame
For this monster you can't tame
I try to pretend I knew better
I'm not scared but I should be
'Cause you'll still be living while I'm busy singing
I will not let you live
Take one step, have you got it in you?
You'll have to take it if you want to
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back underground
Take one step, have you got it in you?

You'll have to fake it like you always do
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back under, knocked back underground
So take your chances
Treading water in the fountain of youth
The truth will set you free
Well, now you're drowning in the water
In the fountain of youth
The world will set you free
Well, now you're floating in the water
In the fountain of youth
The truth will set you free
Well, now you're poisoning the water
In the fountain of youth
The world will set you free
Take one step, have you got it in you?
You'll have to take it if you want to
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back underground
Take one step, have you got it in you?
You'll have to fake it like you always do
You'll have to face the consequences that can bring you down
Don't try and play the game
'Cause you could get knocked back underground
