Capture

Eternal Summers

Been racing around
Running aimlessly
to capture the sound
to capture and release
I know I can't say no to it
ear to the ground
Pulse I can not shake
Sorting was found
in patches I can make
I know I can't say no to it
I wonder why its
never the same
I wonder why its
never the same
Been racing around
running desparately
I'm sorting the sound
to become part of me
You know I can't say no to it
I wonder why its
never the same
