Changes

Van She

No, I can't find your jeans A prince of memory I can't show you tears But I'm already goneRazors bring you pain Apple juice won't stain The olives taste the same But I don't know youAnd it's alright Cause it's over I don't care about you With your books and Your stories Everything you doNo, in those dreams of you Hips and browned eye view Starless was our song I'm already goneRazors bring me pain Orange juice won't stain The olives taste the same But I don't know youAnd it's alright Cause it's over I don't care about you With your books and Your stories Everything you do Everything you do Everything you do You do
