

Change Your Life

Iggy Azalea

[Hook]

Imma change your life, imma change it

Imma change your life, life

Imma change your life, imma change it

Imma change your life, life

Imma change your life, imma change it

Imma change your life, life

Imma change your life, imma change it

Imma change your life, life[T.I.]

Yo, Hustle Gang homey, real talk, no bullshit[Verse 1: Iggy Azalea]

You used to dealing with basic bitches

Basic shit all the time

I'm a new classic, upgrade your status

From a standby to a frequent flyer

have passed your past life

And Now renovate your future

Then I integrate my genius shit

We purchasin' not perusing

Yea I love your hustle, baby

Just lemme add a little bit of muscle, baby

Join a venture, we'll partner up until the sheds are up

And I'll up your wages on a private island, dolo

[?] Cono

Them broads before me was locals,

Through customs accustom your wardrobe, damn

Stamped passports where they all pass ports,

Til the clocks fast forward

There'll be dark blue shores,

Where they don't do chores,

We just get chauffeured

Damn, this is the life

Exclusive shit with all access granted

In the country where the accents are grand

And they landin' on top of all the mansions[Hook]

Imma change your life, imma change it

Imma change your life, life

Imma change your life, imma change it

Imma change your life, life

Imma change your life, imma change it

Imma change your life, life
Imma change your life, imma change it
Imma change your life, life[Verse 2: T.I.]
If you could listen more than you speak
I get you everything that you need
I'm talking bout red bottoms LV
Even extensions plugs in your weave
I be blowing on strong weed when we ride
And everybody just lookin'
But when that nigga go holla
They like nah shawty she taken
I'mma get you you up out thAnnotateat corner shop
Put you up in Neiman Marcus where you supposed to shop
Hey let me show you that watch
You supposed to wear, hey get up out
That Honda Civic get your ass in here,
Tell your Mom and Dad that you strange
Don't worry 'bout it you got it,
You fly over in coach and fly back in a jet,
Hustle Gang on your chest,
Ain't no time for no stress[Iggy Azalea]
We spend our winters in the Summer of Australia
Eating crumpets with the sailors
On acres without the neighbors
We fast-forward four years more
We long way from piss poor
And all the shit that we endure
I told you what you was in for so[Hook]
Imma change your life, imma change it
Imma change your life, life
Imma change your life, imma change it
Imma change your life, life
Imma change your life, imma change it
Imma change your life, life
Imma change your life, imma change it
Imma change your life, lifeOnce you go grace, you never go good
You never go back, even if you could
I'll show you my way, I got that good-good
You never go back, even if you couldHave you ever wished your life would change?
Woke up and you lived your dreams
Baby I can help you make that change
I can show you how to do this thing[Hook]
Imma change your life, imma change it
Imma change your life, life
Imma change your life, imma change it

Imma change your life, life
Imma change your life, imma change it
Imma change your life, life
Imma change your life, imma change it
Imma change your life, lifeOnce you go grace, you never go good
You never go back, even if you could
I'll show you my way, I got that good-good
You never go back, even if you could[Outro]
Once you go grace, you never go good
I'mma change your life, I'mma change it
I'mma change your life (life)
I'll show you my way, I got that good-good
I'mma change your life, I'mma change it
I'mma change your life (life)
