

Cool Out

L7

[Incomprehensible]

Are you the half that's gonna swallow the gun?

Exactly where do you stand

You seem to have trouble being human You've got a habit of startin' a fight

You wanna punch out somebody's light

Messin' with other people's lives

What makes you think that you've got that right Cool out

Yeah, what's your problem?

Cool out You've got a habit of startin' a fight

You wanna punch out somebody's light

Messin' with other people's lives

Just what makes you think that you've got that right Cool out

Yeah, you're a psycho

Just cool out Cool out
