English

-
Feel, Watch, P.L.U.S. Sixth Sense

I canâ€™t be tamed, I can never,
donâ€™t touch touch, rush it, rush it

My eyes that arouse you even from far away,
Light, light, guilty, guilty

Your thirsty face starts sweating
And your flesh is on the tip of my sharp fingers

The bubble in champagne
Explodes, good pain
(No need to worry, love is just a game)
Hit that high

Pop~ (pop) Pop~ (hoo hoo)
The music that will fill the space between us
Pop~ (pop) Pop~ (hoo hoo)
Out of breath, more than music
Pop~ Pop~
This feeling that I want to share with you is
more than emotion
Better than the love motion

Donâ€™t reach out on your will,
just sit, sit, thatâ€™s right
Wait for a chance and when you get it,
kiss kiss, frenchy frenchy

Higher up your sense
And give yourself to the feeling
that is climbing over that level

Trapped in a jungle
just like two animals
(No need to worry, love is just a game)
Hit that high

Pop~ (pop) Pop~ (hoo hoo)
The music that will fill the space between us
Pop~ (pop) Pop~ (hoo hoo)
Out of breath, more than music
Pop~ Pop~
This feeling that I want to share with you is
more than emotion

In the dream that you have hidden your secrets
I smear into it subconsciously
Into that freer place

Hey, live it up right away, huh?

Just follow me
as I escort you
(New World) Look at this if you donâ€™t think
youâ€™ll experience something dark
(Follow me) uh (say my name) a little louder
You wonâ€™t forget me, sing to me baby
(Follow me) thatâ€™s right (say my name) gracias
Can you follow?
You wonâ€™t be able to forget this after hearing it
Other music will get boring
(Raise arms!) Halt and fire!

Pop~ (pop) Pop~ (hoo hoo)
The music that will fill the space between us
Pop~ (pop) Pop~ (hoo hoo)
Out of breath, more than music
Pop~ Pop~
This feeling that I want to share with you is
more than emotion
Better than the love motion
