

# Love And War

## Dilated Peoples

It's love and war  
It's love and war  
It's love and war  
We accomodate those  
I got lots of love for my crew that is  
I got lots of love for my crew that is  
I got lots of love for my crew that is Young buck in the game  
Started off hardheaded stuck in my ways  
But things change, and days turn to nights  
And the nights are cold if your people ain't right  
My squad is straight, split up the cake in three ways  
My partners down, I'm feeling the pain  
And when we up, find us out trying to live  
I got lots of love for my crew that is Old soul in the game  
I grew up stressed out trying to hold in the pain  
Kept my mind right, sketched the highlights  
I assure life, but fight for my rights  
And your right to fight for yours  
I fight through four tongues of spikes, swords  
The days of thunder the night of tours  
It's dope to fight the illness that fight the cures If it ain't family, I ain't sure  
Love is love, war is war  
They want theirs, they want yours  
I got lots of love for my crew that is  
Love is love, war is war  
I got lots of love for my crew that is  
I got lots of love for my crew that is, for my crew that is  
I got lots of love for my crew that is For the love of God  
For the love of cats scrambling to beat the odds  
Hustling and ducking in between the lots  
For the love of my family, the streets are ours  
The DJ's ripping these beats apart  
We prefer to spread love, like Peter Tosh  
With magic classic, we group that shit  
I got lots of love for my crew that is I'd rather swallow blood than pride  
Between love and war is a thin line, its a dangerous time  
You better go for yours, 'cuz I'm going for mine  
I'm out to chip in, no doubt before I leave the grind  
Check this, what's class how we gonna win

And how to turn your buds over to our next of kin  
And how we gonna stay focused to read the game  
And how we gonna see if you try to stop the bang If it ain't family, I ain't sure  
Love is love, war is war  
They want theirs, they want yours  
I got lots of love for my crew that is  
Love is love, war is war  
I got lots of love for my crew that is  
I got lots of love for my crew that is, for my crew that is  
I got lots of love for my crew that is I got lots of love for my crew that is  
I got lots of love for my crew that is
