World Gone Wild

Doro

There's a flamin' hole in the society
A billion souls without destiny
Livin', lovin', cryin'Feedin' the system, starvin' your life
Polish the prison, sharpen the knife
Livin', lovin', dyin'Ev'rybody keeps movin' on and on
Never seeing anything that could be wrongThe world's gone wild
The world's gone wild again
The world's gone wild
You can almost feel the end
Listen sister
Load your pistol
The world's gone wildWe're losin' hold of our sanity
Tempting fate with our fantasies
Livin', lovin', cryin'Sellin' secrets and tellin' lies
We're face to face with no alibis
Livin', lovin', dyin'Ev'rybody keeps movin' on and on
Never seein' anything that could be wrongThe world's gone wild
The world's gone wild again
The world's gone wild
You can almost feel the end
Listen sister
Load your pistol
The world's gone wildThe world's gone wild
The world's gone wild
The world's gone wild
The world's gone wildOh the world's gone wild
The world's gone wild again
The world's gone wild
You can almost feel the end
Listen sister
Load your pistol
The world's gone wildWorld's gone wild
World's gone wild again
World's gone wild
World's gone wild again...World's gone wild
World's gone wild again
World's gone wild
World's gone wild again...
