

# Girl Gotta Way

## Bart Davenport

The girl that got away just put her money down  
On a one way non-stop ticket to Paris or London Town  
She'll do just what she fancies, so far from your control  
Sign up for classes with no plan or goal  
Her name was Desiree, she's somewhere else tonight  
Drinking wine red like roses by? light  
She plays a few old records, but skips your favorite tunes  
They drift away like memories, like little grey balloons

()

Girl gotta way, just like a summer day  
Knows just when to say goodbye  
Do you recall the night when you left her in the rain?  
There'll be no goin' back, you can't erase that night in Spain  
You underrated heart, you really failed to see  
She'd fly from you and find a home across the sea  
Here, with me
