

To the Sky (The Loving Hand Remix Full Length)

Maps

My memory
Feels like it's playing with me
These things I know
Yeah, I know The sun will end with you
Need help to cut on through
Can only feel this way
When silence comes I can sing it to the sky
There's a risk it won't reply
If I could change it, man I would
And I won't screw it up this time Been here before
It won't happen no more
These things I know
Yeah, I know They get into your mind
I guess you know the signs
Can only feel this way
When silence comes I can sing it to the sky
There's a risk it won't reply
If I could change it, man I would
And I won't screw it up this time I can sing it to the sky
There's a risk it won't reply
If I could change it, man I would
And I won't screw it up this time I can sing it to the sky
There's a risk it won't reply
If I could change it, man I would
And I won't screw it up this time I can sing it to the sky
There's a risk it won't reply
If I could change it, man I would
And I won't screw it up this time
