Denise

Ace Troubleshooter

Waiting for a sign that never came
Waiting, pinching nerves to stay sane
Denise, can't erase the time, forget the past
Knowing good times come and go so fastDenise, it's not all set back in time
Denise, just lay it down and you'll find
You've changedNowhere girl, a cage you've come to know
Still wondering, "Where did they all go?"
Denise, plan a recluse life down to the day
While you have chains to lose and a whole world to gainDenise, it's not all set back in time
Denise, just lay it down and you'll find
You've changedDenise, Denise, it's time
Time to seize the world
Denise, it's timeDenise, it's not all set down in stone
Denise, just lay it down and you're home
You've changed
