Red Light

Meja

She said, "I think it's time for winter
And the trains are all here"
I think, I smell a change in seasons
I think the time for change is near

You say that we have no feelings
We feel like we are her for hire
You packed it up and then you left me
It seems your plan has back fired

Follow me in the soft parade
You don't have to learn today
And you're still lyin' there in your daze
Well, I'll ask the red lights, if you can stay

I see the red lights over Denton town
I see them flashin' all around
I hope we never lose this feelin'
I hope we're never comin' down

Follow me in the soft parade
You don't have to learn today
And you're still lyin' there in your daze
Well, I'll ask the red lights, if you can stay

Follow me in the soft parade
You don't have to learn today
And you're still lyin' there in your daze
Well, I'll ask the red lights, if you can stay

Follow me in the soft parade
You don't have to learn today
And you're still lyin' there in your daze
Well, I'll ask the red lights, if you can stay
