In My Kingdom Cold

Immortal

Forth after dark, a time I do know
In my kingdom I enter to my own world
Open the gate of a mountain dark
Rising with the shadows, a dark world made for meBlack my mind, black my heart
In my kingdom I enter to my own world
Open the gate of a mountain of black
Rising with the shadows a black world made for meIn my kingdom cold at the mountains of madness
Unending grimness and these mountains which I heartIn my kingdom cold at the mountains of madness
Unending grimness, this kingdom is mineFrozen and cold, an existence I know
In my kingdom cold, I enter this condition
Open the gate, there's a mountain of ice
Rising with the shadows, a cold world made for me
A cold world made for meForth after dark, a time I do know
In my kingdom I enter into my own world
Open the gate of a mountain of dark
Rising with the shadows, a world truly made for meAnd here we go againIn my kingdom cold at the mountains of madness
Unending grimness and these mountains which I heartIn my kingdom cold at the mountains of madness
Unending grimness, this kingdom is mineThis kingdom is mine
