

Might Get Lucky

Teairra Mari

Now if you treat me like a treat me like a lady then potentially I'll let you be my baby
You had the number one spot and you can be the only one allowed
Now if you get behind the wheel and drive me crazy, And I'll never ask you to come a save meh hey
And so far you got the high score

Chorus

Now if you keep the keep this up then you might get down
I promise baby imma give it to you, if you keep doing that do doing that shit,
Keep doing that, then you might get lucky
Even though I'm the baddest game in town, and you can have it baby all you gotta do is keep doing that do
doing that shit, doing that then you might get lucky
Now imma tell you how tell tell you how I want it and imma let you let you get upon it yeah
I know your body is like a rock
But I wanna see if you can put it down
The way Imma work for you, I'm sure you like the way thrown it and maybe we can capture the moment yeah,
ill give you what most guys die for

Chorus

Now if you keep the keep this up then you might get down
I promise baby imma give it to you, if you keep doing that do doing that shit,
Keep doing that, then you might get lucky
Even though I'm the baddest game in town, and you can have it baby all you gotta do is keep doing that do
doing that shit, doing that then you might get lucky
Bridge
We bobbing and there's something pullying me closer to you
There ain't no telling just what we will do oh baby
The feeling is stronger, let's do what we came to do

Chorus

Now if you keep the keep this up then you might get down
I promise baby imma give it to you, if you keep doing that do doing that shit,
Keep doing that, then you might get lucky
Even though I'm the baddest game in town, and you can have it baby all you gotta do is keep doing that do
doing that shit, doing that then you might get lucky

X3
