Broken Drum

Beck

I see you there Long black hair Your eyes just stare Your mind is turning You know I'll laugh I won't take it back I've seen your eyes I know what your thinking We'll shoot our guns We'll have fun Don't ever doubt itAnd when I say "Fare thee well, My only friend" Oh, how the days go Oh, how the days goYour setting sun Your broken drum Your little drugsNever forget you Never forget you Never forget you
