

# Love In the Afternoon (feat. Nello Luchi)

Chrisette Michele

No, come over now  
I wanna strip to it Everybody waits  
Til the sun goes down  
To show affection  
Light it up at eight  
Turn the covers down  
To share the passion Im not like the rest  
I dont mind kissing in the sunshine  
Dont mind connecting in the day time  
Start now, keep it cool tonight  
Dont gotta be too fresh  
People see through windows  
We dont have to explode  
I dont mean to impose But let me have my way, ah yea  
You don't have to wait  
Show a little love, ay yea  
In the afternoon, show me in the afternoon Let me have my way, ah yea  
You don't have to wait  
Show a little love, ay yea  
In the afternoon Heres my disclosure  
Im a little sneaky  
Underneath the moon  
Im on good behavior  
I dont get too freaky  
But I get real cold Im not like the rest  
I dont mind kissing in the sunshine  
Dont mind connecting in the day time  
Start now, keep it cool tonight  
Dont gotta be too fresh  
People see through windows  
We dont have to explode  
I dont mean to impose But let me have my way  
You don't have to wait  
Show a little love  
In the afternoon Let me have my way  
You don't have to wait  
Show a little love  
In the afternoon Good night, good night  
Good night, good night

Good night, good night I really want you baby Good night, good night

Good night, good night

Good night, good night I'm not like the rest

I don't mind kissing in the sunshine

Don't mind connecting in the day time

Start now, keep it cool tonight

Don't gotta be too fresh

People see through windows

We don't have to explode

I don't mean to impose Love you early in the day

Language at brunch

Appetite for passion

We could end the lunch

Be exposed to the sun

Boy you are the one

It's whatever you like

It's whatever you want

Don't mean to impose

But the pose that you chose

Coach for clothes dozed

And closed off and closed

Inside the kind of loving you would never regret

And by the way, p.s. boy you'd the best Let me have my way

You don't have to wait

Show a little love

In the afternoon Let me have my way

You don't have to wait

Show a little love

In the afternoon Let me have my way

You don't have to wait

Show a little love

In the afternoon
