## **Spiritual**

## **Katy Perry**

Lay me down at your altar, baby

I'm a slave to this luck

Your electric lips have got me speaking in talesI have prayed for a power like you

To see deep down in my soul

Oh, you make me bloom like a flower at desert roadMagic, or one, or mystery

All of you trying to work on me

I would surrender myself

Holy how, and heaven high

You will open up my eyes

And I'm finally hereThis is spiritual, under your spell

Phenomenal, the way you make me feel

Like an angel, oh, at blow

Like a feather, you make me floatLove you crazy kite on your left

Lost in sweet ectasy

Under nirvana finallyMagic, or one, or mystery

All of you trying to work on me

I would surrender myself

Holy how, and heaven high

You will open up my eyes

And I am finally here This is spiritual, under your spell

Phenomenal, the way you make me feel

Like an angel, oh, at blow

Like a feather, you make me float(You make me float, you make me float)This is spiritual, under your spell So phenomenal, the way you make me feel

Like an angel, oh, at blow

Like a feather, you make me float(You make me float, oh, you make me float)
