

# Star of Bethlehem

## Sandi Patty

There is a child, whose wish for Christmas  
Lies far beyond what she can see  
And with sunrise she runs to rainbow's end  
Searching for her dreams  
She sits alone where none can reach her  
Beside the tree with silver trim  
And in the evening she wishes on a star  
For Another friend  
Star of Bethlehem, Star of Bethlehem  
I can see you shining bright  
Star of Bethlehem  
Star of Bethlehem, Star of Bethlehem  
Guide me to the Child of Light  
Star of Bethlehem  
There is a Child within a manger  
Whose love can reach the smallest heart  
From kings to shepherds  
To everyone of us whose dreams have been torn apart  
And he was born for all the children  
Who watch the snow and dream their dream  
He is the Sunrise, He is the Child of Hope,  
The star of Bethlehem
