

Taking the Edge Off

Corey Smith

An Omaha wind's been cuttin' me like a razor
I came dressed for the weather but the winter's got it out for me
I'm covered in a chill, going mad like I'm fighting a fever
I'm sick of FebruaryChorus: So I'm taking the edge off
I'm taking the edge off
One more glass of shakin' off the cold
I'm aimin' to steer clear of anymore pain here
It's already been a long year on the roadThe stars look dim cause they're covered in a cloud of street lights
The moon is out but the city's got it hidden from view
I keep crawlin' back home but I'm runnin' out of things to say now
I'm an icy midnight blueChorus: So I'm taking the edge off
I'm taking the edge off
One more glass of shakin' off the cold
I'm aimin' to steer clear of any more pain here
It's already been a long year on the roadWell I'm freezing
Yes I'm freezingChorus: So I'm taking the edge off
I'm taking the edge off
I'm aimin' to steer clear of any more pain here
It's already been a long year
Already been a long year
Already been a long year on the road
So I'm taking the edge off
I'm taking the edge off
