Science Of You

The Epoxies

Got my tv on
Got my radio playing
Got facts and figures
They don't help at all.One thing I don't understand
And that's you.
That's you.Got charts and graphs
Got studies and surveys
Got research (research)
But I dunnoWhat do I do to get through to you
To youAll my science proven useless
I can't learn the formula for you.
Oh noGot a cute dress on
Got my radio playing
Got lipstick, perfume
They don't help at allOne thing I don't understand
And that's you
That's youGot tits and ass
Got bras and panties
Got make up (make up)
But I dunnoWhat do I do to get through to you
To youAll my efforts proven useless
I can't learn anything about you
About you
Oh you
Oh you
Oh you
You
You
You
