## I'll Make It Clear

## **Teenage Fanclub**

They think they know us but they don't know us

In love there's nothing

That they can show us anymore
It's never been like this beforeI'll make it clear
I love you dearJust something simple and unaffected

We're getting closer

Than we expected to be
It's me for you and you for meI'll make it clear

I love you dearDear

DearYour life was darker

And I think you lost your way

Stumbled into your life

To brush the past awayI'll make it clear

I love you dearDear

Dear

Dear
