Maybe someday

Evergreen Blueshoes

I was a young boy
Sittin' in an old house trippin' on rock & roll
You were
A pretty little girl who never listened to what you were told
Maybe someday
You and I will be together
Maybe someday
You and I will find forever
Maybe baby, maybe baby can't live without you
Why? I just don't know
But for now I've got to
Rock & Roll
See you
Sittin' over there messin with your blonde hair but it's alright
Now I'm
Gonna rule the world just another pretty girl who's walked in my sight

Maybe someday
You and I will be together
Maybe someday
You and I will find forever
Maybe baby, maybe baby can't live without you
Why? I just don't know
But for now I've got to
Rock & Roll
Maybe someday, maybe someday
I've got to
Maybe someday, maybe someday
I've got to
Maybe someday, maybe someday
I've got to
Rock & Roll
