Young Hearts Forever

Steve Perry

In the friendship of lovers
Lives the joy of the heart
And when trust is forsaken
Our whole world falls apart
And when the wind cries
You're with me
And tears say, "Enough"
And when the song prays for love
Young hearts forever
Don't wait one moment this time
Love is forever
(With somebody like you, yeah)
The young hearts survive
On the wings of an angel
Ooh a child learns to fly
And little by little
The sands move through time
And I can live a lie
But I think I know better
Young hearts forever
Don't wait one moment this time
Love is forever

(With somebody like you, yeah)
The young hearts survive
Here in the darkness
She dances alone
Roses from yesterday
Will she ever know?
Oh, young hearts forever
Don't wait one moment in time
Love is forever
(With somebody like you, yeah)
The young hearts survive
(With somebody like you, yeah)
Young hearts
Young hearts
When love, when love is forever
Young hearts

(One moment in)
Forever, forever, forever
(With somebody like you, yeah)
Give me just a little more time
She was an old flame of mine
I remember, I remember
