U Make Me Better

Bo Bice

Lately, I've been so far gone
Pretending, I don't know where I went wrong
I've been lying to myself in the arms of someone else
Without you I just can't fake it tonightHere I am, so please don't tell me it's the ending
You're all I ever wanted from the beginning
I know I let you down, I'll live with that forever
I want to scream out loud
That you're the only one that makes me betterBaby, I could barely talk to you
You got me, don't know how I made it through
Still you came with me that night, you will remember that alright
I can't believe that we could lose this tonightI'm begging you now please don't tell me it's the ending
You're all I ever wanted from the beginning
I know I let you down, I'll live with that forever
I want to scream out loud
That you're the only one that makes me betterYeah, this time I'm gonna make you right
Oh, just take me home with you tonightPlease don't tell me it's the ending
You're all I ever wanted from the beginning
I know I let you down, I'll live with that forever
I want to scream out loud
'Cause you're the only one that makes me better
(Makes me better)Please don't tell me it's the ending
(U make me better)
You're all I ever wanted from the beginning
(U make me better)
I know I let you down, I'll live with that forever
I want to scream out loud
'Cause you're the only one that makes me betterU make me better
U make me better
U make me better
