

# Damned In Fire

## Fleshcrawl

Evil mean and hellbent  
We're searching for the way  
No anticipation  
That our future has decayedThe fires burnt for ages  
Throughout the night  
When history was written  
No one survivedDamned in fire, we will burn  
Damned in fire, our turn  
Damned in fire, death in flames  
Damned in fire, our graveEvil mean and hellbent  
We're searching for the way  
No anticipation that  
Our future has decayed
