

Area 51

Artension

Is it real?

The visions I see and feel or imagination running wild? Is it illusion? Predictions of thoughts concealed

Come with me, take my hand, see what I've seen

Area 51, the secrets you keep they ever be told

Area 51, where is the proof that our leaders withhold? Should I believe? Or pack all my things and leave

My powerful doubt burns a hole in my mind Is it confusion? Predictions of thoughts concealed

Come with me, take my hand, see what I've seen

Area 51, the secrets you keep they ever be told

Area 51, where is the proof that our leaders withhold? Why do they cover up? You should see what I've seen

Show me the answers to the questions within my heart

Or are you in fear of the truth I might find? Behind your walls seer of things concealed

Come with me, take my hand, see what I've seen

Area 51, the secrets you keep they ever be told

Area 51, where is the proof that our leaders withhold?
