

Area 51

Artenion

Is it real?

The visions I see and feel or imagination running wild?Is it illusion? Predictions of thoughts concealed
Come with me, take my hand, see what I've seen
Area 51, the secrets you keep they ever be told

Area 51, where is the proof that our leaders withhold?Should I believe? Or pack all my things and leave
My powerful doubt burns a hole in my mindIs it confusion? Predictions of thoughts concealed
Come with me, take my hand, see what I've seen
Area 51, the secrets you keep they ever be told

Area 51, where is the proof that our leaders withhold?Why do the cover up? You should see what I've seen
Show me the answers to the questions within my heart
Or are you in fear of the truth I might find?Behind your walls seer of things concealed
Come with me, take my hand, see what I've seen
Area 51, the secrets you keep they ever be told
Area 51, where is the proof that our leaders withhold?
