

After the Rain

Smoke Fairies

I love the feeling after the rain
I feel just like a bird you'll never see again
'cause i'm with someone i do not love
I don't know how to leave when i've had enough
I'm like a flightless sparrow

I don't want to know
Why you flinch when you're dreaming
I only feel alone
Like i don't even know who is sleeping in my bed

And loves a ghost that passes through
Comes screaming through the rooms tearing us in two
And i dream at night of summer rain
Filling up the grooves carved into our graves
In earth we let grow fallow

I don't want to know
Why you flinch when you're dreaming
I only feel alone
Like i don't even know who is sleeping in my bed
