

Afterglow

Travis

Feeling myself all of the time
All of the time feeling alright
Taking awhile raising a smile
Raising a smile makes it all worthwhileBut if you wanted to find peace of mind
Then you could find it anytime you liked
You are the afterglowFeeling my way all of the time
All of the time doing just fine
Taking a page out of my life
Out of my life wouldn't it be niceBut if you wanted to find peace of mind
Then you could find it anytime you liked
You are the afterglowYou are the midnight show the only one I know
You come and then you go and when you finally leave
You leave nothing for meOk, one, one, two, three, four
