

Waitin' (feat. Clare Bowen)

Nashville Cast

Every heart wants the upper hand
But it was more than I could stand
Said you were running when you hit the ground
Mostly you were just hanging around and
You said love has always been kind to you
Now you know it can be unkind too
Pay no mind when I slam the door
Because we both know that's what you came here for
Have you been waiting on a broken heart?
Did you see the end from the very start?
I saw it too
I never knew that you were only waiting on a broken heart.
Clock's always ticking up on the wall
Waiting for someone to take the fall
One hand always wants to hang on
The other one says that it's time to move on and
True love's always been such a racket
You try every code but you never can crack it
Cause there's love that's new and all the rest
But the love that's gone baby hurts the best
Have you been waiting on a broken heart?
Did you see the end from the very start?
I saw it too
I never knew that you were only waiting on a broken heart.
Have you been waiting on a broken heart?
Did you see the end from the very start?
I saw it too
I never knew that you were only waiting on a broken heart.
