

# For Myself

## Brainfreeze

For myself  
I must learn for myself  
Not from what someone else  
Has said or done And so I live my life from day to day  
And try to smile  
While feeling my way  
Just like a child For myself  
I must learn for myself  
The future that someone else  
May say will come May never be  
Oh, what ever destiny holds for me  
Let me see  
For myself
