Going Down

[Motorhead](https://damnlyrics.com/)

Dr. Rock is gonna shoot you full of rock 'n' roll
We do it real good
Loud and clear, we beat the drum
We gonna make you run
In the name of rock 'n' roll, fire in the sky
Going down, going down
You can't mess with Dr. Rock
So don't you even try
We run through the city, got everything we need
We got all the aces and we got them up our sleeve
Gonna see the doctor, take away your pain
We do it real fine
We say what we mean, we mean what we say
We're gonna make your day
In the name of rock 'n' roll, fire in the sky
Going down, going down

You can't mess with Dr. Rock
So don't you even try
We run through the city, got everything we need
We got all the aces and we got them up our sleeve
Crossing over rivers, over mountains, over seas
Coming to rock your world
Hear us scream, whatever can it mean?
We're gonna steal your girl
In the name of rock 'n' roll, fire in the sky
Going down, going down
You can't mess with Dr Rock
That's right, don't you even try
We run through the city, got everything we need
We got all the aces and we got them up our sleeve
Right now
[Incomprehensible]
