

Make Up Your Mind

MxPx

Make up your mind,
'Cause no ones gonna do it for you this time
Make up your mind
Maybe your afraid of the things you'll find
You say that nothing really matters to you
You say that nothing really matters to you
Never has
You say that nothing really matters to you
Never has, never will
It's all made up in your head
The life your living is overrated
It's all made up in your head
There nothing you can do but to leave you stranded
From morning noon, and night
Till the sun goes out outside
No one knows what's yet to come
Or what's about to come undone
