Harmony

The Bar-Kays

Boy let's sing this sucka
You wanna be alone
A joy to see you
I'm so glad I'm here
I come as a true friend
So feel comfortable relax your fears
You've got no one
And you know I've got nobody too
Never been so much in tune
With anyone in my life too
We just took our time
To settle and unwind
We innocently vibed
Our hearts intensified, until
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
Did not expect, no
To get a lover from a real friend
You are so warm to me, when I'm around
You won't melt like margarine
Oh girl you thrill me
Oh, with your world please feel me
Oh, lady you excited me
Oh, won't you please invite me
We just took our time
To settle and unwind
We innocently vibed
Our hearts intensified
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
You sang, a melody

And naturally I ring, a harmony
'Cause lady I feel the real thang
Can we be the main thang
Honey I wanna be your one man band
Your piano man, may I tinkle your grand
I tinkle you
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
Silently, soulfully
You creep into my life
And now you
Become a part of me baby
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
Silently, soulfully
You've become a part of me
Joyfully, melodically
You and me in harmony
Silently, joyfully, silently
