

# Unfinished

## Joey Harkum

He collects women like records  
Plays â€˜em out till theyâ€™re weathered  
Then puts them on a shelf and finds another one that can entertain him better.  
I know you got to do whatever it takes to make it through the day.  
Aftermath of a soldier  
Paranoid and unsober  
He sound is well and itâ€™s over but he canâ€™t help but to remember  
He knows you got to do whatever it takes to make it through the day.  
At night she talks to Jesus  
So she donâ€™t feel so useless  
She knows a long time ago he died to save us.  
I know you got to do whatever it takes to make it through the day.  
Strangers seem so familiar  
My friends keep gettinâ€™ stranger  
But clear and present dangers always seem to work out in my favor  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
See I gottaâ€™ be better so I better make a change  
A poor man relies on his word and his name  
And I shattered â€˜em both  
â€˜But I still wonâ€™t complain because Iâ€™ve been redeemed and my Lord knows the same right?  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
But it took a lifetime for me to realize  
The biggest sin Iâ€™ve know is a thing called pride  
A proud man wonâ€™t admit when he is wrong  
And heâ€™s got enough lies as the day is long  
And he never forgives but he always forgets.  
That the shit that he does itâ€™ll be different, no it ainâ€™t.  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day  
I know you got to do whatever it takes to make it through the day
